

ATI TEAS Guidelines

If a student has multiple TEAS test scores within one year, only the first/earliest score will be accepted unless evidence of remediation is provided.

- A minimum passing composite score of 62% is required for entry into the ARC Nursing program.
- Students who score less than 62% will be required to remediate prior to retesting.
- Students who wish to improve their score (original score greater than 62%) may also remediate and retest.
- Students who remediate to improve their score for either reason must complete and submit a “Remediation/Retest Approval Request” form (below) with their application.
- Further information can be found on the ARC nursing website regarding TEAS preparation, registration, remediation, and testing.

TEAS Remediation Process:

Determine your remediation plan by assessing your TEAS test results and reviewing the “ATI TEAS Preparation/Remediation” document on the nursing website.

1. Complete the “Remediation/Retest Approval Request” form.
2. Submit a “Remediation/Retest Approval Request” form AND copies of all ATI TEAS scores to the Nursing Department Office HEED 731;
3. Allow two (2) weeks for review and approval by ARC Nursing Department Admissions Committee;
 - a. Note: approval in the summer may take longer due to faculty availability.
4. Retake the TEAS test.
5. Submit “Remediation/Retest Approval Request” and new test score with application.

Please note the following:

- TEAS minimum score of 62% applies to California Community College Nursing Programs only.
- Students have one year from first/earliest test date to complete remediation, provide documentation, and receive approval for re-test of TEAS. Once a year has passed, only the applicants earliest/first test scores will be accepted for program application.
- It is highly suggested, though not required, that students testing less than 50% in any one section of the TEAS test remediate before program entry. Please see “Preparation and/or Remediation” document on our website.
