

American River College Nursing Department

ATI TEAS Guidelines

Starting spring 2023 application cycle all students must take ATI TEAS Test Version 7. If a student has multiple TEAS test scores within one year, the following guidelines will apply.

- A minimum passing composite score of 62% is required for entry into the ARC Nursing program. (Based on legislation.)
- Students who score less than 62% will be required to remediate prior to retesting. Minimum 90 days since previous attempt is required.
- Students who wish to improve their score (original score greater than 62%) may also remediate and retest, there must be at least 90 days between attempts.
- Students who remediate to improve their score must complete and submit a “Remediation/Retest Approval” form (below) with their application.
- Further information can be found on the ARC nursing website regarding TEAS preparation, registration, remediation, and testing.
- Note: Points given for TEAS Scores have been updated based on ATI’s new Academic Preparedness Levels.

TEAS Remediation Process:

Determine your remediation plan by assessing your TEAS test results and reviewing the “ATI TEAS Preparation/Remediation” document on the nursing website.

1. Complete the “Remediation/Retest Approval” form.
2. Retake the TEAS test.
3. Submit “Remediation/Retest Approval” form along with new and previous TEAS test scores in the application packet.

Please note the following:

- TEAS minimum score of 62% applies to California Community College Nursing Programs only.
- If it has been over 365 days since the previous test, the test with the highest score will be accepted for program application.
- It is highly suggested, though not required, that students testing less than 50% in any one section of the TEAS test remediate before program entry. Please see “Preparation and/or Remediation” document on our website.

Name: _____

ATI TEAS Exam

Student ID #: _____

Remediation/Retest Approval Request

- I received less than 62% on the TEAS test.
- I received greater than 62% on the TEAS test and wish to improve my score and retest.

Describe remediation completed. There must be 90 days between each TEAS test taken or the first/earliest TEAS test score will be used.

Attach **all** TEAS test results.

Remediation activities:

I acknowledge that the plan as presented was completed. This re-test approval request is less than one year from the first/earliest TEAS test date (attach scores).
