

American River College Child Development Center

American River College • 4700 College Oak Drive • Sacramento, California 95841 • 916.484.8651

TO: Students/Parents
 FROM: ARC Child Development Center Supervisor
 RE: Application Process

The American River College Child Development Center offers developmentally appropriate programs to assist children as they grow to their fullest potential. The family must meet eligibility criteria (income and need) as established by the California Department of Education, Early Education and Support Division, in order to be eligible to receive subsidized care. Non-subsidized care slots are available; please ask office staff for details.

We recommend you enroll in classes that are timed back to back if possible. Because we are unable to guarantee enrollment, we recommend that you have alternative child care plans until a spot is available. Once a spot for your child is available, we will call you to schedule an enrollment appointment. It is important that you provide accurate contact information.
